## FOR INDIVIDUALS 65+

### Medicare enrollment periods

To ensure no gaps in coverage, arrange for Medicare and supplemental insurance before existing coverage ends.

Initial enrollment period for Part A (hospitalization) and Part B (medical services).	Starts 3 months before 65th birthday, with coverage taking effect the first day of the month in which you turn 65.
Special enrollment period for Parts A and B (for people who are covered by an employer group plan at 65).	Can enroll in Medicare anytime during employment or when group coverage ends.
General enrollment period for Parts A and B	Those who miss the initial or special enrollment periods can sign up between January 1 and March 31 each year. Coverage begins July 1.
Initial enrollment period for Part C (Medicare Advantage).	May coincide with initial or special enrollment period for Parts A and B.
Initial enrollment period for Part D (drugs).	May coincide with initial or special enrollment period for Parts A and B. If you have creditable drug coverage through a retiree or employer plan, it is not necessary to enroll in Part D when you enroll in Parts A and B.
Open enrollment period for Medigap policies	Starts the first of the month in which you are BOTH over 65 and have Part B, and lasts 6 months. During this time, Medigap insurers have to take you, regardless of health status.

- Switch to a different Medicare Advantage plan
- Drop your Medicare Advantage plan and return to Original Medicare (and sign up for a standalone Part D drug plan)

## Medicare choices

### Original Medicare or Medicare Advantage Plan?

- Original Medicare
  - Enroll in Medicare Parts A and B
  - Choose a standalone prescription drug plan and enroll in Part D
  - Choose a supplemental insurance policy (Medigap policy or employer/retiree insurance). Note: Once you turn 65, your employer or retiree insurance may work differently than it has in the past. It may be coordinated with Medicare. If you will be retaining employer or retiree coverage after turning 65, check with your plan to find out what you need to do to maintain coverage and to find out how it works.
- Medicare Advantage plan
  - Enroll in Medicare Parts A and B
  - Shop for and enroll in a Medicare Advantage plan that includes drug coverage offered by a private insurer

**HSA contributions may no longer be made after enrollment in Medicare**

\* Starting in 2020, Plans C and F are not available to people new to Medicare. If you already have either of those plans (or the high deductible Plan F), you will be able to keep your plan.

\*\* After you meet your out-of-pocket yearly limit and your yearly Part B deductible, the Medigap plan pays 100% of covered services for the rest of the calendar year.

\*\*\* Plan N pays 100% of the Part B coinsurance, except for a copayment of up to \$20 for some office visits and up to a \$50 copayment for emergency room visits that don't result in inpatient admission.

\*\*\*\* If you have Original Medicare, and the amount a doctor or other health care provider is legally permitted to charge is higher than the Medicare-approved amount, the difference is called the excess charge.
